SOFT SHELL SPORT PLUS WOMENS JACKETS WITH HOOD

Soft-Shell Jackets can replace the traditional combination of an insulating inner garment and a waterproof breathable outer garment. The jackets are very light, flexible, breathable - and at the same time protect against wind. The new Aquatech fabric ensures that the rain does not penetrate. These are jackets for an active leisure, as well as when you are going to enjoy a not too hot summer evening by the sea in the city. Available in sizes: XS—2XL
