Materials: 100% wool, azo-free colors, certified wool, fsc-certified paper, recycled paper and organic cotton. 100% natural, renewable and biodegradable.

Size: 8.5" x 7"

Production

We believe that design creates a happier world. Throughout the whole design process our goal is to work as much local as possible, produce less and smart packaging, simply to reduce negative impact on our planet, but also to support craftsmanship in Sweden and around the world. Handmade products are an important part in our production.

Here is a snapshot from our production in Kathmandu, 100% felted wool drying in the sun, using azo free colors from Switzerland and ecological wool from New Zealand. All put together by a social responsible factory supporting women at work.
